Quality Policy

We at ULTRA TOOLS INDIA PRIVATE LIMITED shall be Quality Manufacturers of Bandsaw Blades, Hole Saws & Arbors, Reciprocating Saw Blades, Jigsaw Blades, Hacksaw Blades, Hacksaw Frames and Tool Bits.

We are committed to produce products conforming to International Standards. We shall strive to achieve Total Customer Satisfaction by anticipating and meeting their changing needs with a commitment to satisfy applicable regulatory requirements.

Towards this ULTRA TOOLS INDIA PRIVATE LIMITED endeavors to continually improve its Quality Management Systems, Products, Processes, Practices and Personnel skills.

In order to achieve the above, Quality Management System complying with ISO 9001:2015 are instituted and implemented with the active involvement and commitment of top management and all employees.

Environment Responsibility

We see Climate Change as the greatest threat affecting Economic Stability, Vulnerable Communities and the Society at large. The Depletion of Natural Resources and Destruction of the Fragile Environmental and Social Systems have compelled us to Review our Development Patterns.

We will work towards Minimizing Waste Generation by promoting Recovery, Recycle and Reuse. We will further make sincere efforts towards Environmentally Friendly Technologies.

MAGICUT[®] TCT Hole Saws (HSN Code: 8202)

NEW

Precision Ground Teeth

Products smooth
high cutting capacity

Ejector Spring
For automatic
core ejection

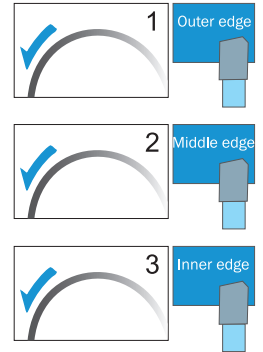

3-Flat Shank

For positive grip,
preventing slippage
in chuck

Safety Stopper

Prevents
breakthrough,
thus protecting the
work surface

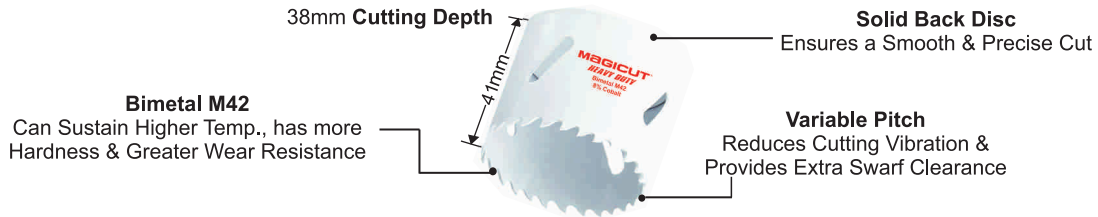

Surface Treatment	Material quality	Specification range	Product characteristics	Range of application
The surface is sand-blasted with stainless steel sand	The drill body is made of 45 carbon steel, The center drill is made of high speed steel 4341, Edge welded with hard 10X (K30) alloy	15mm-200mm	The center drill is made of high-speed steel, Easy and stable positioning, High quality alloy with 3 combined blades, Non-breaking blade, sharp and durable, small vibration, Open pore is fast and stable, All specifications have chip removal holes.	Applicable to drilling of various flat and curved metal and stainless steel plate.
		Specification range		
		The cutting depth reaches 0-26mm
